

THE GLEICHEN CALL

VOLUME XXIX NO 18

GLEICHEN, ALBERTA, WEDNESDAY JULY 15, 1936

SUBSCRIPTION \$2.00 PER YEAR

GLEICHEN WILL BE REPRESENTED AT VIMY RIDGE

Quite a crowd of people gathered at the station Monday evening to bid good-bye and wish the best of luck to Mr. and Mrs. E. W. Brown, W. K. Brown and T. Hasketh, who left on the special train to attend the pilgrimage to Vimy Ridge. All the men are war veterans. W. K. Brown and T. Hasketh served in the Great War and E. W. Brown served in South Africa. While overseas all will visit their old homes in England and Scotland and expect to be absent about three months. Other people from this district bound for Vimy are Mrs. Jas. Osler of Queenstown and Dave Nichols of Mossleigh.

RESULTS OF THE GLEICHEN SCHOOL EXAMINATIONS

Promotions in the Gleichen schools as a result of June examinations:

Grade IX Promotions:

Passed in Seven Units:

Robert Black; Winnie Gorrie, Mary Downey.

Passed in Six Units:

Howard Warner, Frank McNeil, Albert Riddell, Betty Umbreit, Jack Hamar, Marjorie House.

Passed in Five Units:

Colin Busby, Gertrude Desjardins.

Passed in Four Units:

Donald Schmidt, Elmer Crum.

Passed in Three Units:

Elsie Kalmekoff.

Grade VIII to Grade IX:

Rita Halstead, Elizabeth Goodrich, Helen Jones, Bernice Krammer, Robert Sather, Earle Clark, Jack Robinson, Florine Warner, Helea Kelly, Orlo Jeffers, Campbell Evans, Margaret Dafoe, Patricia Swain, Irene Young, Bobby Kiddell Dennis Woods, Alex. Murray, Allan Boggett, Oliver Ferguson.

Grade VII to Grade VIII:

Kenneth Boyd, Ronald Halstead, Harold House, Florine Jeffers, Martin McBean, Leonard Christianson, Wilhoit Evans, Leslie Menard, Lois Thorburn, Jack Reid, Elmer Goodrich, Marie Lumsden, Homer Desjardine, Teddy Egglese.

L. M. Norton, Teacher.

Grade VI to Grade VII:

Marjory Gorrie (honors); Wallace Smith (honors); Rachel James (honors); Teddy Varnell (honors); Alice Krause; Ruby Dingman; Leo Christianson; Grace Deshayes; Emma Little (recommended); Lila Sevier; Dorothy Bogie.

Grade V to Grade VI:

Agnes Boyd (honors); Jean Black (honors); Betty Jane McQueen (honors); Esther Downey (honors); Arthur Nicholas (honors); Gwen Clark (honors); Mary Guttrath, Donald Farquharson; Edgar Taylor; Rosa Woody; Joan Dafoe; Audrey Service; Dickie Windsor.

Grade IV to Grade V:

John Boyd (honors); John Rodominski (honors); Zulea Collins (honors); George Varnell (honors); George Matheson; Peggy Bogie; Maurice Rishaug; Hazel Crum; Donald Reid; Tom James; Doris Krause; Maureen Pinesau; Eli Sherstoboff.

M. VanVolkenburg, Teacher.

Grade I to Grade II:

Eileen Gorrie, Donna Jean MacCallum, Pauline Sutermeister, Robert Fleury, Norman Matheson, Marjory Morrow, Audrey McQueen, Marie Short, Donald Hunter, Sheila Thompson, Ethel Bales, Louise McKy, Norman Calchield, Allen Rodominski, Bryon McCool, Lloyd Riddell, Mary Sherstoboff, Elvin Gerloff. Also promoted: Melvin Service, Not Classed, Fred Melchior.

Grade II to Grade III:

Norma Halstead, Dorothy Johnston, Frank McKay, John Thompson, Grace Sutherland, Wesley Clark, Neil Warner, Billy Johnston. Also promoted, Robert Service, William Service.

Grade III to Grade IV:

Billy McIntyre, Theresa Fleury, Stanley Warner, Kenneth Matheson, Marion Smith, Teddy James, Eugene Plante, Nellie Gerloff, Alvin Sutermeister. Also promoted: Florence Bell, Grace Goodrich. Not promoted: Grace Guttrath, Colleen Warner, Phyllis Birdson, Teacher.

News Items of Local Interest

The streets were filled with people Saturday night, and the stores reported doing a big business.

There is a dandy crop of weeds around St. Andrew's Church, which spoils this otherwise neat corner.

Large gangs of men are working out from town for the Calgary Power Co., replacing poles and repairing the power lines.

W. P. Pinesau of the bank staff returned not long ago from a trip to his old home on Prince Edward Island. He reports he had a wonderful vacation and his only regret was the fact that he could not bring back a mess of herring for Dr. Farquharson.

J. O. Bogie has tined his wheat field, on the borders of the town, into a pasture for his milk cows. Last year his field of wheat was deposited in the streets of Gleichen as the result of the big hail storm of July 17. This year the field is dried out which means a lot of work and money has been thrown away.

Wm. McConnell has received word that Jack Moss, formerly manager of the Gleichen Gunners and now manager of the Vegreville team, has been offered the management of a hockey team in London, Eng. Jack is a splendid manager and should make good in the Old Country if he accepts the job. Although he can hardly skate he has so ability to handle hockey players, each team having a few players in him, are having great confidence in him, as result Jack can get every ounce of play out of his men when a crucial game is being played. The London promoters are not making a mistake in making the offer of a managership to Mr. Moss, and given a little time to develop a team all England will wear of his prowess.

Alberta and British Columbia highways are not built for comfort or speed, or safety, and therefore have no drawing power for tourist traffic. If many do come to view our many scenic features it is in spite and not because of our roads. If they were improved still more would come. The dust clouds that trail after a motor on a gravel road are a source of grave danger. The financial condition of these two provinces makes it difficult for these provinces to meet the expenditure necessary to put our highways in first class shape, but it

should be done if we would benefit the tourist trade that would be during the season. One has but to read statistics that show the value of the tourist trade that would be realized how much we are missing by neglecting the avenues of travel. Last year, tourists spent over two hundred million dollars in Canada, a large increase over the year before. The world will not make a beaten path to our doors. We have to pave the way.

A newspaper is a great national book. It penetrates into the heart of nearly every family and silently does its work. It can drop the same idea into the minds of thousands of people at the same time. There are many people who read nothing else, almost no one reads that does not read the newspaper and hence as far as the advertising medium it is by far the cheapest and best; and every business man who wishes to prosper and become a power in the land will have to keep the word advertise constantly before him! don't let an opportunity pass to make your name and business favorably known. Every advertisement inserted attracts the eye of the outside world, and nothing else tends more towards the growth of a city.

Every ambitious town is composed of three elements. Those who work patriotically, vigorously and intelligently for its advancement; those who are in a state of apathy or indifference and those who take a curious delight in discouraging the efforts of others by ridicule and by a persistent denial that any progress can or has been accomplished and by boasts of every other town besides their own. The last class are called croakers, but they are really contemptuous, for their opposition does not arise simply from despondency but from that unenviable spirit that will neither act itself or suffer others to act.

You can get a very good idea of the personal habits and tastes of the occupants of property by the appearance of things about the premises. If the yard is full of rubbish and other evidences of carelessness, the chances are that the occupants are untidy and loose in their habits. On the other hand if everything is clean, neat and tidy and a hospitable contentment prevails the premises the chances are that the occupants are neat and progressive. Let all keep these hints in mind and clean up and beautify their property.

Rev. Mr. Boyd has accepted a call to take charge of the Presbyterian church at Indian Head, Sask.

Mr. and Mrs. J. B. Leggat and family moved over from Drumheller last week.

The two defaulting bank clerks had the gall to return here last week but found it was no joke and received a very warm reception. They were allowed to remain until the arrival of the next out-going train and were informed if they did not take it there was a nice case of stale eggs ready for presentation to them. They did not wait for the presentation.

W. R. McKie, the genial Ford car distributor for this district, has kept rather busy delivering cars. Most farmers can only afford one car at present, but with the bumper crop in prospect they may add considerably to this number.

Mr. and Mrs. James Cameron and their twin babies left Tuesday for Vancouver.

Where is the province of matrimony? It is bounded by making love one side and babies and cradles on the other. Its products are population, broomsticks and stinky cut at night. It was discovered by Adam and Eve while trying to find a northwest passage out of Paradise. The climate is rather sultry until you pass the tropics of housekeeping, when squally weather sets in with sufficient power to keep all hands cool at night. For the principal roads leading to this interesting state, consult the first pair of blue eyes you run against.

Mr. and Mrs. W. W. Brown returned from Empress where they spent ten days visiting friends and took in the summer.

An accident took place at Hamner Hill when Johannes Christian was drowned in a slough near T. Thorsens' farm home.

There is some talk of the Gleichen boys taking a half holiday over Thursday during the hot weather.

Geo. Moss has a number of plants now bearing good sized green tomatoes in his garden on Eight avenue.

Howard Bowen has resigned his position in S. A. Hall's store and has accepted a similar one in Bassano for which place he left last week.

Eudor Brouseau has a fine collection of Blackfoot Indian curios and has

VEGETABLE GARDENS INSPECTED BY APPOINTED JUDGES

The judges for the vegetable garden section of the Board of Trade competition paid a visit to town Wednesday evening of last week and in company with Mr. Black made a casual inspection of the gardens. They both expressed their surprise at the class of gardens in town and stated that on the average the Gleichen gardens were further advanced than the gardens in their community. The date of the final inspection will be announced later.

CANADA YEAR BOOK FOR 1936 HAS BEEN ISSUED

The publication of the 1936 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official annual of the country and contains a thoroughly up-to-date account of the natural resources of the Dominion and their development, the history of the country, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc.—in brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1936 Canada Year Book extends to over 1,150 pages, dealing with every phase of the national life and more especially with those susceptible of statistical measurement. Attention may be called to some of the special features of the present volume. The statistical summary, included in the introductory matter, has been extended this year. A special article, "Canada on Vimy Ridge," prepared by Colonel A. Fortescue Duguid, D.S.O., B.E.C., director of the historical section (G.S.), Department of National Defence, has been included in Chapter II. This is apropos in the light of the pilgrimage to Vimy and the official unveiling of the Vimy Memorial arranged to take place this month. New material on fertility rates and multiple births in Canada has been added. Insofar as statistics are available, the immigration tables of Chapter VI have been placed on a calendar year basis to facilitate international comparison. Statistics covering the construction industry in Canada have been made available in the Bureau recently, and are published for the first time in Chapter XVI, amplifying the information on contracts awarded and building permits, statistics which have appeared regularly in the past. The introduction of the external trade chapter has been revised by the inclusion of an abstract of the value and quantity of world trade abridged from the League of Nations' "Review of World Trade, 1934."

Section 9 of Chapter XVII dealing with merchandising and service establishments has been entirely revised and re-written to cover the estimates of retail trade made since the 1931 census; a new series of monthly indexes of retail sales, 1929-35, is included as well as principal statistics of chain stores and motion picture industry. Some revision has been considered necessary in Chapter XXI by the inclusion of new material on the important subject of municipal taxation and the estimates of national wealth, 1933 with revised comparable figures for 1929—the latter estimate gives a picture at the peak of domestic prosperity while the 1933 figures reflect the writing down of values resulting from the depression. Several of the statistical series in Chapter XXII have become broken by the creation of the Bank of Canada, but since it will be some time before other series can be begun on the new basis, a compromise has been temporarily made. Improvement has been affected in the presentation of the financial statistics of the provincially-controlled schools of Canada by the collection of data on a more comparable basis from all provinces. There are presented in Chapter XXV, Chapter XXXVI has been revised; sections dealing with the public health

TWO BROWNIES PROMOTED TO RANK OF GUIDES

(Communicated)
At a meeting of the Gleichen Guides, two senior Brownies, Grace Deshayes and Marjorie Gorrie were presented for promotion to the Guide Company. They were accompanied to the meeting by the Brownie Pack.

The Brownie Pack, on their arrival opened in the usual manner. The pow-wow ring was formed around an owl, which had been placed on the lead stool in the centre of the ring. All held hands and danced in a circle singing the Brownie motto, then each six in turn danced around the owl, each singing their own particular motto. The Guide Company entered the horseshoe formation while the Brownie Pack performed their opening ceremony. Two patrol leaders left their Patrol to receive their new recruits, while two additional Guides held the ropes across the bridge separating the Pack from the Company.

The Guides saluted the Brownie Pack and passed on in turn to their new Patrol leader, who introduced them to their new captain, lieutenant and company. The barrier was then let down and the new recruits walked across the bridge to their new company.

It is interesting to note that both recruits had passed their second class Brownie tests before entering the Guide Company. Both Brownie Packs and Guide Company adjourned to the park for an open air discussion on camp which was to take place in July.

activities of Dominion and provincial health authorities and a brief sketch of the origin and growth of the different (Continued on another page)

MRS. I. M. McCUNE WILL ADDRESS LADIES S.C. GROUP

A very interesting meeting of the Meadowbrook Social Credit Ladies Group was held at the home of Mrs. Clarence Nelson on July 9th, with twenty members and friends in attendance.

The president occupied the chair, and after the Roll Call, Current Events were given by all members. An interesting paper entitled, "Prosperity Certificates" was read by the president, Mrs. L. Bell, after which the meeting adjourned. A very dainty tea was served by the hostess and her assistants.

The next meeting will be held at the home of Mrs. Fannie McPhee on July 23rd, when the guest speaker will be Mrs. I. M. McCune. Visitors are cordially invited to attend.

Home Markets For Local Produce

Assuming that a statement appearing recently in the daily press is correct, it seems an anomaly that a country so well equipped in many sections to produce wool as Canada should have to import that commodity from other countries.

Yet such apparently is the fact if credence can be given to the published assertion of L. R. McGregor of Toronto, Assistant Trade Commissioner for Australia to Canada when he said in a recent interview that "Canada is Australia's third best wool customer."

Not only are the western provinces well suited to wool production, both on large scale on the ranches in southern areas of Saskatchewan and Alberta and in all three prairie provinces on smaller scale from farm flocks, but it is generally conceded by authorities that conditions in these provinces enable Western Canada to produce wool of quality equal to the best anywhere.

Time was, not much more than a decade ago, when a substantial percentage of Western Canadian fleeces were offered to the market in poor condition. The quality often was there but many of the fleeces were greasy, filled with burrs and generally appearing ill prepared for market requirements.

Since that time, however, producers have learned a great deal about the preparation of wool, and the standard of the product has been vastly improved, so much so, in fact, that an unkempt fleece in shipments for market from the prairies is a comparative rarity today.

That being the case, it can be asserted with confidence that Western Canada can produce sufficient quality wool for domestic requirements in addition to considerable quantities annually for export, and the producer is now complying with market requirements in the preparation of his product.

Why, then, should it be necessary for Canada to import wool from other countries such as Australia and the Argentine? In the light of the facts, that appears an unanswerable question.

Another anomalous factor in the Canadian wool industry is the fact that although Eastern Canadian woolen mills are equipped with machinery to produce tops (wool in a partly manufactured condition) the machines are standing idle while tops are being imported from Great Britain. The reason, it is explained, is because tops can be manufactured more cheaply in England than in Canada. This is a plausible explanation, though the situation is an unfortunate one for this country, when it is remembered that there are plenty of idle workmen still in the East.

The anomalous situation at the production end, however, is one which should lead to some inquiries in the hope that the cause for a country like Canada importing wool can be discovered and, if feasible, rectified.

The statement made by the assistant trade commissioner for Australia engenders the thought that possibly there is room for considerable development of the domestic market for other Western Canadian agricultural products, and inspires the question whether everything that is possible is being done to ensure absorption of home products in local markets to the greatest possible extent. If other agricultural products are subjected to competition of similar imported commodities, it is a very unfortunate thing for the producers, and especially is this the case at a time when farmers are turning to greater diversification because they are forced to it by the European wheat situation.

Perhaps the solution to the problem of finding wider domestic markets for home grown products lies in the laboratory and this is a question worthy of investigation by farmer organizations, boards of trade and similar institutions and the governments.

There are men today working quietly in private laboratories seeking means to extract by-products from wheat and other agricultural products of which Western Canada has a great abundance, capable of conversion into fuels, clothing and other necessities and there is no doubt there is great opportunity for more research work along these lines.

The work of some of these men leads to the belief that therein may lie at least a partial solution of some of the most vexing agricultural problems. It is stated, and not without authority, that the secret of the manufacture of some of these commodities on a commercially feasible basis, has been wrested from test tubes and retorts and other paraphernalia of chemical and electrical engineering laboratories, and that all that is needed to make them a marketable reality is the necessary capital. Where this is to be found for such projects is another question.

Great Change Taking Place

Women Drifting Away From Kitchen Work Shows

The average American woman is drifting further from her traditional place in the kitchen, according to a survey made by Quax, an honorary scientific fraternity for women at the University of Pittsburgh.

The scientific co-eds came to their conclusions while studying problems encountered in a quest of employment. Their detailed survey represented an effort to clarify and classify the many-sided difficulties in job-seeking and their relationship with the university graduate.

Interviews, letters and telephone calls to and from a thousand personnel directors of business organizations and public institutions revealed that many positions are waiting for trained women.

Opportunities are available, it was found, in a wide variety of business, educational and scientific spheres. Almost every branch of city, state and federal departments indicated that women, especially those trained in science, are needed.

The many possibilities included almost every phase of activity except that centred by the kitchen. The fate of the family's meals, it was indicated, is facing highly uncertain times.

Extension Of Trade

Says Canada Should Co-operate With The Rest Of The World

Canada's aim should be greater development of trade with Great Britain, Hon. G. H. Ferguson told the Galt Kaitiaki Club.

While advocating extension of trade, the former high commissioner to London said Canada can never follow a policy of isolation. Canada should co-operate with the rest of the world for its betterment and advancement. Britain has the greatest market in the world and the Dominion should capitalize to the fullest extent on this fact, he said.

The speaker predicted the Dominion would soon be a dominant economic nation once again and said the close connection between Canada and Great Britain has been an immense advantage. He paid tribute to the foresight and purpose of the fathers of confederation who were "not dreamers but practical builders."

Drouth Stricken Areas

To Expand Drouth Rehabilitation Work In The West

Under the impetus of extension of drouth-stricken areas in Western Canada the Dominion government has decided to expand its drouth-rehabilitation work in the west.

Hon. J. G. Gardiner, minister of agriculture, said financial assistance would be given farmers in the digging of "dugouts" or reservoirs of water for stock. This decision means assistance will now be given to all water conservation projects.

The basis of assistance to dugouts is three cents per cubic yard of dirt moved up to a maximum of \$50. In all cases the government provides engineering advice and all construction projects must be approved by engineers.

Assistance on the same basis is provided for the construction of small dams.

Great Difference In Weight

Small And Large Parcels Sent Recently By Air Freight

Contrast in United States air freight traffic was shown the other day when a parcel weighing only two ounces and another weighing 500 pounds were transported.

The two-ounce package was a single false tooth the owner had left behind in a hotel bedroom, afterwards wirelessing an urgent message to have his forgotten "filler" rushed to him. A mining machine crankshaft made up the 500-pound "parcel."

Another strange consignment was sent by a surgeon in Mexico. It was a tiny piece of living tissue and was rushed to New York for analysis. Laboratory workers carried out their tests and results were telegraphed to the surgeon.

Coronation Plans

Duke Of York Heads Committee In Charge Of Arrangements

The Duke of York will head the committee in charge of plans for the coronation next May 12, The London Gazette announced.

The committee includes Prime Minister Baldwin, the Archbishops of Canterbury and York, Chancellor of the Exchequer Neville Chamberlain, the Earl of Athlone, Sir Samuel Hoare, David Lloyd George, Winston Churchill and Sir Austen Chamberlain.

Tragedy In Northern Seas

Russian Scientists Succumb To Cold And Hardships

Twenty-year-old Ian Krushoff related the story of a grim voyage through the wild and icy waters of the White sea with a cargo of 10 dead men.

Krushoff was the lone survivor of a party of 12 all members of a scientific expedition. He reached safety in a lifeboat loaded with the bodies of 10 of the others. The 11th was not recovered.

The 12, headed by the hydrographer, G. Barinoff, left the expedition's steamer Toros on June 27 in a small boat to make a study of the depth of the sea between Archangel and Kandalaksha bay, on a route crossing the Arctic circle.

"After three days' work," said the youth, "we decided to return to the ship."

"We were caught by a storm. Mounlain waves capsize the boat and swept away the oars, equipment and our comrade Nikolai Fedoseyoff, whom we never saw again. Struggling in the water, the rest of us with great difficulty managed to right the boat and climb in."

"Then for a day and a night we were the prey of a furious sea."

"We had no oars; we tried frantically to row with our hands. The boat constantly shipped water. We scooped it out with our hands and our caps. It was horribly cold. One after another, my companions died of exposure and exhaustion until I was left alone with 10 bodies."

"The sea grew rougher, and it was only by tiring my right wrist to the carotid that I was able to stick to the boat."

From Siam To Surrey

Ex-King Prajadhipok Has Settled Down In England

Ex-King Prajadhipok of Siam has just moved into his new home, on which he spent \$100,000 in improvements, in Surrey, England. It is a red brick house, standing in 15 acres of gardens, and it has four reception rooms, 12 bedrooms and six bathrooms. Every one of the rooms has been specially designed and furnished.

The dining-room is in early Queen Anne style, the drawing-room in late Queen Anne. The other rooms are more modern. A motion picture theatre has also been built, in which the family entertains visitors. Prajadhipok buys the latest talking films, and favors American gangster pictures.

SELECTED RECIPES

BANANA CAKE

- 1/2 cup butter
 - 1 cup white sugar
 - 2 eggs
 - 4 tablespoons sour milk
 - 1 teaspoon soda
 - 1 1/2 cups Purify Flour
 - 2 teaspoons baking powder
 - 1/4 teaspoon salt
 - 1 teaspoon vanilla
 - 1 cup mashed bananas
- Method: 1. Cream butter; add sugar. 2. Add well-beaten eggs. 3. Add bananas and vanilla; beat well. 4. Dissolve soda in milk. 5. Sift flour with baking powder and salt and add, alternately, with milk to mixture No. 3. 6. Bake in loaf tin 50 minutes in moderate oven of 350 degrees.

Emigrant: (Writing back home) "And all the way across the long train journey was so tiresome that one can't keep shouting at every stop 'Bored,' 'Bored.' We were too—but we didn't say nothing."

Tall men live longer than short men, thin men longer than fat, married men longer than bachelors, and vegetarians longer than carnivorous men, according to statistics.

The word rosary is derived from the Latin rosarium, which was originally a garland of roses and used to crown the image of the Virgin Mary.

WRIGLEY'S DOUBLEMINT CHEWING GUM
THE FLAVOR LASTS

House Flies Breed In Garbage

Dangerous Disease Carriers Menace To Public Health

For many years public health officials have reduced the scourge of typhoid fever and many other dangerous, contagious diseases by government enforced legislation in respect to the inspection of cattle, milk-pasteurization, the chemical purification of suspected water supplies, and the elimination of many other known breeding sources of disease.

Each summer it infests the land wherever mankind exists. It is horrible and bred in rotten animal or vegetable matter, lives on filth and refuse. It carries germs of infectious diseases into the home endangering the health of everyone, from the defenceless baby in its crib to the elders of the house who relish the tasty salad, upon which a fly may have recently been feasting and spreading disease germs that have accumulated on its hairy legs.

Public spirited citizens should fully realize the seriousness of this menace and take measures to check it. Searching out hidden unsanitary fly breeding places, keeping homes well screened and foods covered at all times are important. But the quickest and simplest method of killing all flies is to place a few saucers of Wilson's Fly Pads around the house. They will attract the flies and kill them all in a few hours.

The Court Of Claims

Begins Its Sittings After Coronation Date Is Set

After the Coronation date is set, the strangest Court in the world begins its sittings in London. The Coronation proclamation set up the Court of Claims. It considers pedigrees and hereditary rights to serve the King in person.

Some claims which have come before the Court are:

To support the King to the altar.

To carry the Great Spurs (part of the Coronation regalia).

To carry the Cap of Maintenance.

To drink the King's wine as a guard against poisoners.

To have the bed which the King sleeps on the night before he is crowned.

Three claims which are likely to be allowed are those of:

The Earl of Stewardship, as Lord High Steward of Ireland, to carry a white wand as symbol of his office.

The Baron of the Cinque Ports to hold a canopy over the King's head at the Abbey.

The Lord of the Manor of Workington to present to the King a pair of fine gloves.

Plan Crime Hospital

Scheme Is Suggested By Several Prominent British Physicians

A movement to found a "crime hospital," where criminals may be sent for psychological treatment instead of being imprisoned, has been launched by Lord Dawson of Penn and several other prominent British physicians and psychologists. Officials of the home office are said to be in sympathy with the scheme, which may believe may lead to revolutionary changes in the state's attitude on crime. An appeal for \$50,000, with which to build a clinic in London, is being made.

Plan Huge Liner

New Vessel To Be Longer And Larger Than The Queen Mary

Preparations for constructing a bigger and faster companion to the B.S. Queen Mary were begun tentatively on the Clydebank. In shipping circles it was said the liner, if constructed, would probably be christened the King George V.

An official order for the construction still is awaited. It was suggested the projected liner would have a tonnage of about 85,000 as compared to the 80,773 of the Queen Mary.

An official of the John Brown Company which built the Queen Mary for the Cunard-White Star Line said: "We are almost certain to be given a tender although we have not received an official confirmation of the order."

The company had expected to receive an order for a battleship, but it was understood the admiralty work would be spread instead to other shipbuilders in North England to leave the John Brown Company free for the liner.

Cunard-White Star officials have been inspecting models of the proposed liner while experts have produced altered and refined engine designs.

A Brown official said, "The new ship will be larger than the Queen Mary and faster."

It was understood that present plans call for a longer ship with greater passenger accommodations.

The ship, it was said, would probably be placed in commission in 1938.

The Left Turn

Care Should Be Exercised In Making Turn At Road Intersections

A well known writer has estimated that a large proportion of auto accidents are caused by neglect of drivers to observe ordinary care in making the left turn at street and road intersections. The following points are noted:

If you desire to turn to the left do not approach the intersection on the extreme right of the street or highway but keep close to the centre of the road. If you approach on the extreme right you may turn to the left just as another car is coming up on your left.

Do not turn to the left close to the centre of the intersection but continue across the intersection until you are almost directly opposite the right side of the intersecting road or street, then turn to the left. If you turn to the left at the centre of the intersection you are in danger of meeting, head on, a car coming up on your left.

Be sure to give the proper signal a reasonable time before you come to the intersection so that cars coming from behind are prepared for what you intend to do.

Even if the road or street is not marked with a strip-up the centre, there are two imaginary strips on every road and street—the right and the left. On every right or left strip there are one, two or even three lanes. Keep on your own strip and in your own lane is the best advice possible to avoid accident.

Old tramcar bodies, discarded in favor of trolley-buses in various parts of London, can be bought at the depot for \$10 each; carting them away is the real expense.

Thanks To Stamp Collectors

Heavy Purchases Financed Trip Of Dirlidge Around World

It was stamp collectors' heavy purchases of Hindenburg commemorative stamps that made the recent flight of the big dirigible to this country possible. Dr. Hugo Eckener told an audience of New York stamp collectors.

The famous designer said that seven flights were paid for only with the help of the stamp collectors and that they paid the whole expense of the famous trip around the world.

Explorers and pioneers in transportation of all sorts have a source of support in the stamp collectors of the world these days, and the collectors welcome any chance to share in the expense if it means a commemorative cover, suitably marked, for such a thing can never be duplicated, and is likely to increase in value. What a help a few thousand stamp collectors would have been to Columbus! — Port Arthur News-Chronicle.

A water drop cannot rise above the level of the body of water of which it is a part unless the sun's rays draw it up or unless it is driven by mechanical power, as in a spraying fountain.

Cotton and artificial silk material are being made by a process that insures it against wrinkling.

Expert In X-Ray Work

People Owe Heavy Debt To Skill Of A Woman

Every war veteran whose life was saved by X-ray location of a bullet in his body, every civilian whose hidden abscess beneath a tooth has been found by X-ray, owes a debt to the skill and devoted efforts of Elizabeth Fleischman Asheim. This woman, who has been called an American Joan of Arc, was not a physician but was interested in X-ray work through a doctor brother-in-law.

She took a course in electrical science, bought X-ray apparatus and fluoroscope, rendered valuable aid to the Army during the Spanish-American War, and showed by the excellence of the diagnostic X-ray pictures she took how much X-rays could add to military surgery. After the war she saw the possibilities of X-rays in dental work and was busy with this for the few remaining years of her life. — Quebec Chronicle-Telegraph.

A music-hall magician opens his act by guaranteeing to tell the exact age of any lady in the audience. The remainder of his turn is quite popular, though.

Church is the only place you have to be early to get a back seat.

And the darkest hour is just before the dawn.

Gentlemen: I enclose..... Please send me the three magazines checked with a year's subscription to your newspaper.

NAME.....
STREET OR R.F.D.....
TOWN AND PROVINCE.....

Town & District

Mr. and Mrs. James Black have left for their annual vacation which will be spent visiting in Saskatchewan, different parts of Alberta and British Columbia.

The date for the second annual baseball game between the old time Gleichen ball players and the Gleichen All Stars has been tentatively set for Wednesday July 29, and will most likely take place late in the afternoon. A social evening and dance will probably be on the program for the entertainment of the players and fans. A meeting is to be held tomorrow night, Thursday to discuss the whole matter and decide just what to do.

Rev. Joseph Lee of Strone, Alta., paid Gleichen a short visit last week.

Doug Young accompanied by his wife and children and his mother, Mrs. James Young, left last week for Vancouver where they will holiday for a time.

A part of the road to Arrowwood is in a very bad condition. This particular stretch begins near Sloc's Slough and runs for a mile or two. Early last spring the run off of water washed away parts of the road and the holes have never been filled in. In fact the road has never been attended to since it was constructed last year. Those holes to the unwary car driver are a menace and anyone driving into them, even at a very low rate of speed bounces his car and passengers around in a lively fashion. A man with a team and equipment filled all these holes up and put the road in very good condition in short order.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, minister.
Mrs. H. Birch, choir leader.
Miss Jean Farquharson, pianist.
11 a.m. Church School.
7 p.m. evening worship. Guest preacher, Rev. Joseph Lee of Strone, Alberta.

IT COSTS MONEY TO FIND THIS OUT FOR YOURSELF

"I maintain that a local merchant alive to the tastes of purchasing ability of his community, is able to compose an ad in half the space devoted to a circular," stated a foremost national merchandising expert at a retailers convention the other day. "The modest-sized ad will actually move more merchandise from his shelves, not necessarily the identical items advertised—because the public is continually making comparisons of offerings as a basis for their immediate purchases. It is a fact that housewives do 90 per cent of the buying, and I know from experience that few, if any women will devote the time to go over a page of crowded sales items but reading those which most easily meet the eye, the remainder being almost wasted space. I contend that a few well selected items, properly displayed by the local newspaper, the more effective as an advertising medium than a great array of crowded items."

"I have found by careful tests that local newspaper ads give more value dollar-for-dollar, than the circular method for it reaches more actual buyers than the circular. The life of a country weekly is seven days, that of the daily one day, and that of the circular a few hours at most. "It is cheaper, for less items are required to meet the specific needs as understood by the local merchant and the local newspaper. A newspaper carries more prestige than third class matter. A home newspaper with only say a fifty per cent coverage really contacts more actual buyers than a box holder circular attempting a 100 per cent—the latter percentage being impossible."

(Continued from page one) CANADA YEAR BOOK

classes of institutions in Canada have been included.

The death of His Majesty King George V on January 20, 1936, received with deep sorrow throughout the Empire and with world-wide regret, and the succession of King Edward VIII to the throne, have been appropriately marked by the reproduction, as postscript, of the official Proclamation of the Government of Canada made on January 21, 1936, accompanied by the latest official photographs, obtained through courtesy of the respective court photographers.

Owing to the urgent need of economy in the distribution of government publications, it has become necessary to make a charge to all individuals receiving the Canada Year Book. Persons requiring the Year Book may obtain it from the King's Printer, Ottawa, as long as the supply lasts, at the price of \$1.50, which covers

Vancouver's Golden Jubilee

Fifty years ago the first trans-continental Canadian Pacific Railway train from Montreal reached the Pacific Coast. This summer Vancouver, now the Gateway to the Orient and port for ships of the entire world, will celebrate the Golden Jubilee of its founding as the western terminal of the Canadian Pacific Railway, Commemorating July 1 with Foundation and International Good Will Week, the programme concludes with the Canada Pacific Exhibition on September 7, and includes land and water sports, several weeks of grand pageantry, musical attractions, visit of American warships, a two-day air show with a solo flight across Canada planned as the highlight, floral decorations, visit of 15,000 Shriners in mid-July, traditional

pageantry of an Alderhot tattoo, frontier fever, street dancing and costume balls, and historical exhibits arranged to illustrate Vancouver's steady progress during the first half century of its existence.

Even before the beginning of the celebration proper, many colorful events will be given: recital, including Empire Day and horticulture show in May; Pioneer's festival on June 13-14; school's programme in June; Bohemian Congress, which will attract thousands, June 11 to 14; golf tournament, King's birthday, and religious dedicatory services.

One of the highlights of Vancouver's celebration will be the re-enacting of the arrival of the first Canadian Pacific train

almost half a century ago. The venerable old engine, first to the coast, will be run again, with its original pilot, W. H. Evans, at the controls. Some of the old-timers who saw the first train arrive will also be present for the ceremony. The Canadian Pacific Railway will run tours at low cost from Eastern Canada to the Pacific Coast for the event, with stop-over privileges at Banff Springs Hotel, Chateau Lake Louise, and other famous Rocky Mountain resorts.

Pictures show the old and the new Vancouver, and Sir William Van Horne, second president of the Canadian Pacific Railway, who chose the name of Vancouver in 1884 for the western terminal of the first trans-continental railway line.

It is the middle-aged men who are setting the pace these days. It is they who are busy shaping out the future. It is middle age which has most mental energy, most interest in the affairs of life, most staying power, and most enthusiasm for a game or a job. Youth says, "Why worry?" but middle age says, "Let's get a

move on." Youth says, "There's lots of time," but middle age says, "Do it now." The mind does not become middle aged nowadays. It remains strongly and incurably young, in spite of the grey hairs that conceal it. It is the same mind that looked out upon the world at twenty-five with just a little more experience, a little

more tolerance for other people's habits, a little more pity, and a secret sense of humor in seeing how other people are as foolish as oneself. Intellectually, spiritually, there is no such thing as middle age nowadays. At fifty, one is just beginning another adventure, not saying "Good-bye to all that." Middle age? Nonexistent!
